

# PETITION: LEVEL CROSSING REMOVAL - YES! SKY RAIL - NO!

TO THE LEGISLATIVE COUNCIL OF VICTORIA

The Petition of certain citizens of the State of Victoria draws to the attention of the Legislative Council that elevating large sections of the Dandenong Line from Caulfield to Dandenong will cause health risks to our children, hurt local businesses and traders, devastate the amenity of our suburbs and divide communities:

The Petitioners highlight to the Legislative Council that the Sky Rail will:

- Create health risks for our children.
- Hurt business and be a missed opportunity in creating thriving shopping areas along the line.
- Cause a significant loss of amenity and be detrimental to the livability of our suburbs.
- Cause outrageous visual bulk, be a blight on our landscape, and will overlook and overshadow backyards, homes and businesses.
- Create greater noise and disturbance as a result of 24 hour freight movements.
- Be a potential hotspot and attraction for crime and graffiti.

The Petitioners therefore request that Daniel Andrews and Labor immediately abandon the Sky Rail design from Caulfield to Dandenong and that these local level crossings be undergrounded like at Springvale.
