

PETITION: LEVEL CROSSING REMOVAL - YES! SKY RAIL - NO!

TO THE LEGISLATIVE COUNCIL OF VICTORIA

The Petition of certain citizens of the State of Victoria draws to the attention of the Legislative Council that elevating the Frankston Line at Cheltenham, Edithvale, Bonbeach, Carrum, Seaford and Frankston would devastate the amenity of our bayside suburbs and divide communities:

The Petitioners highlight to the Legislative Council that the Sky Rail will:

- Cause a significant loss of amenity and be detrimental to the liveability of our suburbs.
- Cause outrageous visual bulk, be a blight on our landscape, and will overlook and overshadow backyards, homes and businesses.
- Create greater noise and disturbance as a result of 24 hour freight movements.
- Be a potential hotspot and attraction for crime and graffiti.

The Petitioners therefore request that Daniel Andrews and Labor immediately rule out a Sky Rail design for Cheltenham, Edithvale, Bonbeach, Carrum, Seaford and Frankston and ensure that local level crossings be undergrounded like at Springvale.
