

PETITION: LEVEL CROSSING REMOVAL - YES! SKY RAIL - NO!

TO THE LEGISLATIVE COUNCIL OF VICTORIA

The Petition of certain citizens of the State of Victoria draws to the attention of the Legislative Council that elevating the **Dandenong Line at Clayton and Centre Road Level Crossings** will hurt local businesses, shops and traders, devastate the amenity of our suburbs and divide communities:

The Petitioners highlight to the Legislative Council that the Sky Rail will:

- Hurt business and be a **missed opportunity** in creating a thriving shopping area in Clayton and surrounding suburbs.
- Cause a significant **loss of amenity** and be detrimental to the liveability of our suburbs.
- Cause outrageous **visual bulk**, be a blight on our landscape, and will overlook and overshadow backyards, homes and businesses.
- Create greater **noise and disturbance** as a result of 24 hour freight movements.
- Be a potential hotspot and attraction for **crime and graffiti**.

The Petitioners therefore request that Daniel Andrews and Labor immediately rule out a Sky Rail design Clayton Road and Centre Road level crossings and that these local level crossings be undergrounded like at Springvale.
